## Occupational Information in Ontario

You can use the **occupational information** you find in these Ontario websites to help you make decisions about occupations which will work best for you.

Print the occupational information you want to refer to and make notes of key information your **Occupational Profile** form.

### Ontario Job Futures

This provincial government site provides background information about major trends in the economy and labour market, including a set of 157 occupational profiles. Each profile offers information on future growth, training, and salaries.

Click [here](#) to begin the **Practice Exercise** to help you use the Ontario Job Futures website. This exercise will pop up in a new window within your browser. Press the 'print' button and then close this new window to return to this page, once the exercise has finished printing.

### Career Matters from TV Ontario

Choose [All Careers](#) for hundreds of occupational descriptions listed alphabetically or [Career Themes](#) for occupations grouped by sector.

The occupational titles followed by the "film" symbol have associated videos. When you click on a video title, the occupational profile will open. Roll your mouse over the picture on the left. Click on the small window appears in the upper right corner to play the video.

Next, explore [Information about Occupations in the Trades](#).
